Claim Notes

Claim number:	C-1203
Claimant:	Patricia Johnson
Adjuster:	Jerry Hanson

05/21/2025
A low-speed collision in a parking lot was reported, and the claimant, who is not represented, reports a shoulder injury. The reported injury is plausible for a crash of this type.

05/23/2025
Took the claimant's account of the collision. The driver is named on the policy, and coverage was in force at the time of the loss.

05/26/2025
The police report and witness statements confirm the collision happened as described, and the other driver's account matches. Police and witnesses also confirm the claimant was in the vehicle.

06/01/2025
Scene photos were reviewed and show the vehicles in the positions described by the parties. Witnesses and photos are consistent with the reported sequence of events.

07/01/2025
Vehicle history and prior claim records show no known earlier damage. Nothing suggests the damage predates the start of coverage.

07/05/2025
The damage phtoos show dents on a different side of the vehicle and at a different height than the impact the claimant described. The damage pattern does not match the account given.

08/01/2025
Medical records show the claimant was treated for the same body area within the last two years, and that earlier condition adds to the current complaints.

08/10/2025
Treatment followed a usual course and tapered off as the claimant improved. The claimant gave the same account in every conversation so far. Referred the damage-pattern question to a supervisor for review.

08/16/2025
Holding the file open pending a repair estimate review and a supervisor decision on the damage-pattern question before any settlement evaluation.

Recorded Statement

Claim number:	C-1203
Statement of:	Patricia Johnson
Taken by:	Jerry Hanson
Date:	05/18/2025

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the parking lot collision you reported in Katy, Texas. Please state your full understanding of what happened.

A: Sure. I was pulling out of a parking space near the store entrance. It was a busy afternoon and the lot was packed, so I was going slowly, maybe a few miles an hour.

Q: Where were you headed when the impact occurred?

A: I was heading toward the exit lane that runs along the front of the building. I had my turn signal on because I wanted to get out and go down the row.

Q: What did you see as you backed out and started forward?

A: Honestly, I didn't see the other vehicle until it was already there. It came down the aisle from my right, and it hit the rear quarter panel of my car on the passenger side. I felt a jolt and my seatbelt locked up hard.

Q: Did you stop your vehicle before impact?

A: I had almost stopped. I tapped the brakes once I saw movement, but there wasn't enough room to avoid it.

Q: Were you able to get out of the vehicle afterward?

A: Yes, but my right shoulder was hurting right away. I think I twisted it when I grabbed the wheel and turned to look back. It's gotten worse since then, and I've been having trouble lifting my arm above my head.

Q: Have you sought medical attention for the shoulder?

A: I went to an urgent care clinic the same day and they told me to follow up with my regular doctor. I have an appointment scheduled.

Q: Is there anything else you would like to add to your statement?

A: No, I think that covers it. I'm willing to provide any records you need.

Q: Thank you. This concludes the recorded statement.
