Claim Notes

Claim number:	C-1204
Claimant:	Ashley Butler
Adjuster:	Jerry Hanson

April 8, 2025
Claimant reported a low-speed collision while backing out of a space in a parking lot and said the other vehicle struck the rear quarter panel of their car. Claimant is not represented by an attorney and provided initial contact details voluntarily.

May 31, 2025
Reviewed the police report and confirmed the claimant was in the vehicle at the time of the incident, as the responding officer and two witnesses described the same sequence of events.

June 8, 2025
Obtained photos from the scene and from the other driver showing contact damage consistent with the described impact. The damage to the rear quarter panel and bumper is mostly in line with a collision of this type.

June 25, 2025
Spoke with the other driver, who confirmed the accident happened as the claimant described it and that the vehicles made contact in the lot.

June 28, 2025
Claimant reports pain in the right shoulder following the impact and has started seeing a physician. The reported injury is plausible for a collision of this kind.

July 31, 2025
Checked prior claims and vehicle history. No earlier damage to this vehicle is known, and nothing suggests the damage predates the start of the current coverage period.

August 9, 2025
Confirmed no earlier injury to the same shoulder area is on file. Claimant described no prior treatment for that body part.

August 16, 2025
Claimant told the same account of the incident in each conversation so far, including the location, the direction of travel, and the sequence of contact.

September 12, 2025
Received treatment records showing the claimant attended physical therapy on a usual schedule. Symptoms have improved steadily, and the treatment plan is tapering off as recovery progresses.

September 18, 2025
Confirmed the driver of the vehicle lievs with the policyholder and qualifies as a covered household member under the policy.

September 21, 2025
Reviewed the medical notes with the claimant's permission. Progress is consistent with the expected recovery course for this type of soft tissue shoulder injury, and no complications have been recorded.

October 20, 2025
Claim is progressing normally. Remaining items are the final medical bill and the repair estimate. Will follow up once both are received.

Recorded Statement

Claim number:	C-1204
Statement of:	Ashley Butler
Taken by:	Jerry Hanson
Date:	March 27, 2025

Q: Thank you for taking the time to speak with me today. This recording is for claim documentation. Can you confirm you are comfortable continuing?

A: Yes, that's fine.

Q: Please describe where the collision happened.

A: It was in a parking lot at a shopping center in League City, Texas. I was pulling out of a parking space near the main entrance.

Q: What were you doing right before the impact?

A: I had checked my mirrors and was backing slowly. The other vehicle was coming down the aisle, and I didn't see it until it was already close.

Q: How fast would you estimate you were moving?

A: Maybe walking pace, a few miles an hour. I was barely moving.

Q: Did the other driver stop, or did they try to avoid contact?

A: They braked, but there wasn't enough room. Our bumpers met on the rear corner of my car.

Q: Did you get out of the vehicle right away?

A: Yes, I got out to look at the damage. I felt fine at first, but later that evening my right shoulder started hurting badly.

Q: Where is the pain now, and have you sought medical care?

A: It's in the front and top of my right shoulder. I went to an urgent care clinic the next morning, and they took X-rays and told me to rest it and follow up with my own doctor.

Q: Have you been able to work or carry out daily activities since then?

A: Some things are hard. Lifting anything with my right arm hurts, and I've had to limit my driving for a while.

Q: Is there anything else you would like to add?

A: No, I think that covers it. I'll send the clniic paperwork when I have it.

Q: Thank you. This concludes the recorded statement.
