Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1205
Claimant:	Charles Velazquez
Adjuster:	Christopher Wong

2-14-25
Calim received for a sideswipe that occurred while the insured was changing lanes. The claimant is represented by counsel, and all further contact will be routed through the attorney's office.

3-15-25
Reviewed the policy file and confirmed the driver involved is a named driver on the policy. Coverage was in force at the time of the loss, and nothing in the file suggests the vehicle damage predates the policy start.

4-22-25
Obtained the police report and statements from two witnesses. Both confirm the collision happened as described and that the claimant was in the vehicle at the time. Scene photos and the other driver's account match the same sequence of events.

5-28-25
Inspected the vehcile damage. The pattern and location are consistent with the described side impact, and no earlier damage to the vehicle is known from prior claims or repair records.

6-14-25
Counsel submitted the medical file reporting a knee injury. The injury is plausible for a collision of this type. The claimant's account has been consistent across every conversation so far. Records also show a minor strain to the same area years ago that healed fully.

6-29-25
Treatment followed a typical course and tapered as the claimant improved. Based on the records and the matching vehicle damage, the injury appears related to this loss, and the file is moving to evaluation.

Recorded Statement

Claim number:	C-1205
Statement of:	Charles Velazquez
Taken by:	Christopher Wong
Date:	11-7-24

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my name on the recording, if that's all right. I was the passenger in the car.

Q: That's fine. Can you tell me where you were when the collision happened?

A: We were in Baytown, Texas, on a multi-lane road heading toward the interchange. My friend was driving.

Q: What was the driver doing at the time?

A: He was changing lanes to get over for the exit. He checked his mirror, I think, and then we felt a bump on the right side. The other car had come up in the lane we were moving into.

Q: Did the other vehicle make contact with your car?

A: Yes, it sideswiped us. The impact was along the passenger side, right where I was sitting. Both cars kept moving for a second before we pulled onto the shoulder.

Q: Were you wearing your seatbelt?

A: Yes, I was buckled in.

Q: Did you feel any injury at the scene?

A: My right knee hit the door panel and the dashboard area. It hurt right away, and by the time we got out it was swollen and I could barely put weight on it.

Q: Did you seek medical attention?

A: Yes, I went to an urgent care clinic that evening. They took X-rays and told me to follow up with a specialist for the knee.

Q: Have you had any prior injuries to that knee?

A: No, nothing that I can recall. I play some casual sports, but I hadn't had any problems before this.

Q: Is there anything else you'd like to add to your statement?

A: Only that I'm still having trouble with stairs and sitting for long periods. I'm waiting on the follow-up appointment.

Q: Thank you. This concludes the statement.
