Claim Notes

Claim number:	C-1207
Claimant:	Michael Bell
Adjuster:	Darin Tyler

2025-03-12
Insured reported a sideswipe while changing lanes on a multi-lane road, with the other vehicle contacting the passenger-side rear of the insured's car. The insured's policy is active and the driver is named on it, so the claim was opened for review.

2025-05-01
Recroded the claimant's account by phone and noted that the claimant reported a knee injury from the impact. The claimant is represented by counsel, so all further contact will be routed through the attorney's office.

2025-05-02
Obtained the police report, two witness statements and scene photographs, all of which describe the collision as the insured reported it. The other driver's statement matches the same sequence of events.

2025-05-13
Reviewed the damage estimate. The damage is mostly consistent with the described impact angle and force, and no earlier damage to the vehicle is known from prior claims or inspection notes.

2025-07-21
Checked the coverage start date against the loss. Nothing in the file suggests the dmaage occurred before coverage began.

2025-08-04
Requested the claimant's medical records. The knee injury is a plausible result of a crash of this kind, and the records show a prior minor strain in the same area that healed fully with no lasting effects.

2025-08-17
Spoke with the claimant's attorney, who confirmed the claimant's account. The claimant has given the same description of the accident in every conversation so far.

2025-09-17
Noted that it is not yet fully clear where in the vehicle the claimant was seated at impact. Sent a follow-up question to counsel to clarify seating position and any movement duirng the collision.

2025-10-20
Reviewed treatment history. Treatment followed a usual course for this type of injury and tapered off as the claimant improved, with no unusual gaps or escalation noted in the records.

2025-10-27
Summarized the file for supervisor review. The accident, vehicle damage and injury are consistent with the reported facts, with the open item being the claimant's seating position, which is pending counsel's response.

Recorded Statement

Claim number:	C-1207
Statement of:	Michael Bell
Taken by:	Darin Tyler
Date:	2025-03-15

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to what happened, if that's okay.

Q: That's fine. For the record, can you describe where the accident took place?

A: It was on a multi-lane highway in Houston, Texas, heading into the city during the morning commute. I was in the middle lane.

Q: What were you doing right before the collision?

A: I was changing lanes to the right because my exit was coming up. I checked my mirror, saw nothing close, and started to move over.

Q: Did you signal before you moved?

A: I did. I had the turn signal on for a few seconds before I started drifting over.

Q: What happened next?

A: A vehicle in the right lane came up beside me fast and clipped the side of my car. It pushed me toward the shoulder and I had to correct hard to keep from going off the road.

Q: Did you have any contact with the other driver afterward?

A: We both pulled onto the shoulder. The other driver got out and said they didn't see me, and that was about it.

Q: Did you feel any injury at the scene?

A: My right knee hit the center console when the car jolted. It was sore right away, and by the time I got home it was swollen.

Q: Have you sought medical treatment for the knee?

A: Yes, I saw a doctor the same week. They ordered imaging and told me to keep weight off it for a while.

Q: Is there anything you would like to add to your statement?

A: Only that I was careful and signaled properly. I just want my knee taken care of and my car repaired.

Q: Thank you. This concludes the statement.
