Reported injury:	knee injury

Description of the accident (claimant's words)

I was changing lanes on a busy Houston highway when a vehicle in the lane I was moving into sideswiped the rear quarter of my car. The impact pushed me toward the median, and I had to fight the steering wheel to bring the car under control. I pulled onto the shoulder and called for help right away. My right knee struck the dashboard during the collision, and it has been swollen and painful since. I have given the same account of what happened to the officer at the scene, to the adjuster, and to my doctor, and I have nothing to add or change. I am the named driver on this policy and I was operating my own vehicle with the owner's permission at the time of the accident.
