Claim Notes

Claim number:	C-1209
Claimant:	Rachel Wallace
Adjuster:	Christopher Wong

24 Apr 2024
Claim opened after a rear-end collision at an intersection. The claimant reports knee pain, is not represented by a lawyer, and gave an initial statement by phone.

16 Jul 2024
Reviewed the police report and scene photos. The otehr driver confirms the accident happened as described, and the witness accounts match. The officer's notes say the claimant was not in the vehicle when the crash happened, so I am following up on that.

12 Aug 2024
The claimant's account has stayed the same in every conversation so far. A few old scratches on the rear bumper may predate this crash, so I am checking which damage is new.

9 Sep 2024
Medical records show the knee treatment followed a usual course and tapered off as the claimant improved. No earlier injury to that knee is known, but it is not yet clear whether the injury came from this crash.

3 Oct 2024
Confrimed the driver is named on the policy. Nothing suggests the damage happened before coverage started.

18 Oct 2024
Sent the repair estimate to the appraiser. It is not yet clear whether all of the damage came from this impact, so the review remains open until the appraiser reports back.

Recorded Statement

Claim number:	C-1209
Statement of:	Rachel Wallace
Taken by:	Christopher Wong
Date:	3 Apr 2024

Q: Thanks for taking the time to speak with me today. This recorded statement is about the rear-end collision in Pasadena, Texas. Can you confirm you're comfortable with us recording this call?

A: Yes, that's fine.

Q: Where were you sitting when the collision happened?

A: I was in the front passenger seat. My friend was driving.

Q: Had you been stopped at the time of impact, or moving?

A: We had just come to a stop at a light, myabe a few seconds before. Then we got hit from behind.

Q: How hard would you say the impact was?

A: It was hard enough that my head snapped back and then forward. The seatbelt grabbed me pretty hard across my chest.

Q: Did you hit anything inside the vehicle?

A: My right knee hit the dashboard below the glove box. That's where the pain started.

Q: Did you get out of the vehicle or receive any mediacl attention at the scene?

A: I got out and walked around a bit, but my knee was throbbing. The paramedics checked me over and recommended I get it looked at.

Q: Have you seen a doctor since then?

A: Yes, I went to an urgent care clinic the same day and then saw an orthopedic doctor later. They mentioned possible ligament damage and ordered an imaging study.

Q: Are you still experiencing symptoms in the knee?

A: Yes. I have swelling, and stairs and long periods of standing are difficult. I'm currently using a brace.

Q: Is there anything else you'd like to add about the collision or your injuries?

A: Only that I'm still in treatment and I'm following the doctor's instructions. I'd appreciate it if you could let me know what documentation you need from me.

Q: Thank you. That concludes the statement.
