Description of the accident (claimant's words)

I was backing out of a space in a crowded parking lot in Houston, Texas, when another vehicle struck the rear quarter of my car. I had my wrist on the wheel and felt a sharp pain almost immediately, and I was later told it was fractured. I am the named driver on this policy and I have been the only regular user of the car. When I first spoke with the adjuster I described the impact as coming from the left side, and I said I was alone in the vehicle. On a later call I recalled that the impact came from the right and that a passenger was with me. I am not certain which details are right after everything that happened, and I am sorry for the confusion. I am providing this account so the claim can be reviewed with the medical records and the lot's camera footage, if available.
