Claim Notes

Claim number:	C-1212
Claimant:	Howard Davenport

1 Mar 2025
Claim received for a sideswipe that occurred while the insured was changing lanes. The claimant reports a knee injury and is not represented by an attorney, so I am handling direct contact with the claimant.

4 Mar 2025
Reviewed the first recorded statement. The claimant described the lane change and the contact on the rear passenger side in the same way as the initial report, and the account is consistent so far.

15 Mar 2025
Police report and two independent witnesses confirm the accident happened as described and place the claimant in the vehicle at the time. Photos submitted by the other driver show damage that is mostly in line with the described impact.

27 Mar 2025
Reviewed the vehicle appraisal. No earlier damage to the vehicle is known, and nothing in the file suggests the damage predates the start of coverage. The driver is a household member of the policyholder and is covered under the policy.

28 Mar 2025
Claimant reports a knee injury that is plausible for a collision of this type. No prior injury to the same area is known from the records I have reviewed so far.

27 May 2025
Medical treatment has run somewhat longer than is typical for this injury. I have requested the treatment notes and will confirm progress before setting a reserve.

5 Aug 2025
Claimant repeated the same account in each conversation since the first report. Treatment records are pending, and the file will be updated once they are received.

Recorded Statement

Claim number:	C-1212
Statement of:	Howard Davenport

Q: Good afternoon. This recorded statement concerns the sideswipe collision you were involved in while changing lanes in Pearland, Texas. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Please describe in your own words what happened before the collision.

A: I was driving on the main road and needed to move into the right lane to make a turn ahead. I checked my mirror, saw the lane looked clear, and signaled. As I started to move over, I felt a bump on the side of my car.

Q: Where were you when you first noticed the other vehicle?

A: I think it was already partly beside me. I didn't see it in the mirror when I checked, so I'm not sure where it came from.

Q: Did you brake or swerve at any point?

A: I tapped the brakes and tried to steer back into my own lane, but the cars scraped together for a second before separating.

Q: Did you stop your vehicle after the impact?

A: Yes, I pulled onto the shoulder right away and turned on my hazards.

Q: Were you injured?

A: Yes, my right knee hit the lower part of the dashboard when we made contact. It swelled up within an hour and it's been painful to bend or put weight on it.

Q: Have you sought medical care for the knee?

A: I went to urgent care that evening. They took X-rays and told me to follow up with an orthopedic doctor because they wanted a closer look at the joint.

Q: Is there anything else you'd like to add?

A: Only that I want to cooperate fully and I'll send over any records I receive.

Q: Thank you. That concludes this statement.

A: Thank you.
