Claim Notes

Claim number:	C-1214
Claimant:	Jacob Hernandez
Adjuster:	Jerry Hanson

2024-08-26
Claim opened after a side impact at an intersection involving the insured's vehicle and a second vehicle. The claimant reoprts neck strain and is not represented by an attorney.

2024-10-19
Confirmed the driver is named on the policy and that the policy was in force at the time of loss. No concerns with coverage identification at this stage.

2024-11-20
Obtained the police report, which places the claimant inside the vehicle at impact and records the collision as described by the claimant.

2024-11-25
Spoke with the other driver, who gave an account matching the claimant's description of how the crash occurred. Photos from the scene are consistent with a side impact at the intersection.

2024-12-06
Took a recorded statement from the claimant. The account of the collision was the same as the one given at first notice of loss.

2025-01-10
Reviewed the injury report. The neck strain fits the direction and force of the impact. No prior treatment to the neck or upper back appears in available records.

2025-01-13
Inspected the vehicle and noted damage to the driver's side. Prior inspection records show no earlier damage to this vehicle. Some of the visible damage may have come from a different source, so the extent attributable to this impact has not been settled.

2025-02-10
Treatment has continued somewhat longer than is typical for a strain of this type. Requested updated treatment notes to review the course of care.

2025-03-19
Spoke with the claimant again. The account has stayed consistent across every contact. Nothing in the file suggests the damage predates the coverage period. Will continue reviewing the treatment records and the vehicle damage estimate before deciding next steps.

Q: Thanks for taking the time to speak with me today. This call is being recorded for the claim file. Can you confirm you're comfortable continuing?

A: Yes, that's fine.

Q: Great. Can you walk me through what happened at the intersection in Pasadena?

A: I was heading through on the green light, going maybe thirty-five miles an hour. A pickup coming from my right ran the red and clipped the driver's side of my car. I didn't see him until he was already in the intersection.

Q: Did you have any time to react before the impact?

A: Not really. I tapped the brake, but it all happened very fast. The airbags didn't deploy, but my head snapped sideways and then back.

Q: Did you feel any injury right after the collision?

A: My neck was stiff almost right away, but I figured it would loosen up. By that evening it was hurting when I turned my head, and I had a dull ache across my shoulders.

Q: Have you sought medical care since the accident?

A: Yes, I went to urgent care the next morning. They diagnosed a neck strain and gave me muscle relaxers and some anti-inflammatories. I've also been scheduled for physical therapy twice a week.

Q: Are you still experiencing symptoms today?

A: Yes. Turning to check my blind spot is harder, and sitting at my desk for long periods makes it worse. Some days are better than others.

Q: Were you wearing your seatbelt at the time of the collision?

A: Yes, I was.

Q: Is there anything else you think I should know about the accident?

A: Only that I'm glad nobody else was seriously hurt. The other driver's insurance has been contacted, and I've kept copies of the police report and my medical bills.

Q: Thank you. We'll follow up once we've reviewed the documentation. Is there anything you'd like to add before we end the call?

A: No, that covers it. Thanks.
