### Description of the accident (claimant's words)

I was changing lanes on a busy road in Pearland, Texas, checking my mirror and signaling as I moved over, when the car in the next lane drifted into my side of the road and scraped along the passenger side of my vehicle. Both cars pulled to the shoulder after the contact. Since I am the named driver on this policy, I am reporting the collision myself. Later that day I felt stiffness and soreness in my neck and lower back, which I have been treating with my doctor. I have added a few small details to my recollection since the first conversation, such as the other driver's speed and the spacing between our cars, but the core sequence of events has remained the same from my first report to this one.
