Bodily Injury Unit

Claim Notes

Claim number:	C-1218
Claimant:	Leslie Sanchez
Adjuster:	Valerie Rodriguez

3-13-23
Claim opened after the insured's vehicle was sideswiped while changing lanes. The claimant reports a neck strain and says the other vehicle drifted into the lane as they moved over.

3-20-23
Reviewed the policy record and confirmed the driver is named on the policy and coverage was in force at the time of loss. Nothing in the file suggests the damage predates the coverage start.

4-19-23
Spoke with the claimant, who described the collision the same way as in the first report. The account has stayed consistent across every conversation so far.

7-2-23
Obtained the police report, which places the claimant in the vehicle at the scene. Independent witnesses describe the sideswipe as it was reported to us.

7-11-23
Photos from the scene and the other driver's statement both match the described impact. Damage to the vehicle is mostly consistent with a side-to-side contact of this kind.

8-19-23
Checked prior claims and records for the vehicle and found no earlier damage on file. The claimant has also reported no earlier problems with the neck or upper back.

8-26-23
The reported neck strain is a plausible injury for a lateral impact of this type. Treatment has continued somewhat longer than is typical for this injury, so the file will be reviewed at the next interval.

9-3-23
Medical records and treatment notes are being gathered to support the injury timeline. Claim remains open pending the final medical update and repair estimate review.

Recorded Statement

Claim number:	C-1218
Statement of:	Leslie Sanchez
Taken by:	Valerie Rodriguez
Date:	2-28-23

Q: Thanks for taking the time to speak with me today. This recorded statement concerns the sideswipe incident you reported in Sugar Land, Texas. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Please tell me in your own words what happened.

A: I was driving in the right lane on a multi-lane road and needed to move over to make a turn coming up. I checked my mirror, signaled, and started to shift into the left lane. Another vehicle was there and we made contact along the side of my car. It was a scraping sort of impact, not a big crash.

Q: Did you see the other vehicle before you began your lane change?

A: I looked in the mirror and didn't see anything right beside me. I think it came up quickly from behind in the blind spot after I'd already started moving.

Q: Where did the contact occur on your vehicle?

A: Along the passenger side, toward the rear door and back quarter panel.

Q: Did you stop at the scene, and did anyone exchange information?

A: Yes, we both pulled onto the shoulder. We swapped insurance and contact information and took some photos of the damage.

Q: Were there any injuries?

A: I didn't think I was hurt right away, but by the next day my neck was stiff and sore. I've been dealing with a strain in my neck and some tightness across my shoulders since then.

Q: Have you sought medical treatment for that?

A: I went to an urgent care clinic and I'm following up with my regular doctor. They told me it looks like a neck strain.

Q: Is there anything else you'd like to add?

A: No, I think that covers it. I'm willing to provide the photos and medical paperwork if you need them.

Q: Thank you. This concludes the statement.
