Description of the accident (claimant's words)

I was stopped at a red light on a main road in Baytown, Texas, when the car behind me hit the back of my vehicle. I felt a sharp jolt, my head snapped forward and back, and my neck and upper back have been stiff and sore since then. I am the named driver on this policy, and I have been reporting the accident as honestly as I can. When I first spoke with the adjuster, I described the impact as coming from the rear and mentioned that I had been alone in the car. In later conversations I recalled the force coming from a slightly different angle, and I also remembered that a passenger was with me. I know tehse details have shifted as I have tried to remember the moments after the collision, and I want the file to reflect that openly. I am seeing a doctor for whiplash and will provide records as they become available.
