Claim Notes

Claim number:	C-1222
Claimant:	Virginia Bell
Adjuster:	Darin Tyler

11 Jan 2025

The claimant reported a side impact at a controlled intersection, with the claimant's vehicle struck on the driver's side by another vehicle that entered from the cross street. The claimant said the claimant was in the vehicle and the driver is named on the policy.

15 Feb 2025

Police attended the scene and confirmed the claimant was seated in the vehicle when it was struck. Two independent witnesses were located and both described the collision in the same sequence the claimant gave.

13 Mar 2025

The other driver gave a statement that matches the claimant's account of the signal phase and the point of impact. Scene photographs show the damage pattern lining up with the reported direction of force.

17 Mar 2025

The vehicle was inspected at the repair facility, and the damage to the driver's side panels, door and rear quarter is consistent with the impact described. No earlier damage to the vehicle is known from our records or from the repair history provided.

19 Mar 2025

The claimant attended urgent care the same day with neck pain and stiffness, which the examining clinician recorded as a strain. The injury is a good fit for the kind and force of a side impact of this type, and no prior injury to the neck or upper back is known.

21 Apr 2025

The claimant was contacted by phone and again in person, and the account of the accident has stayed the same each time, including the sequence of events and the position of the vehicles. The claimant is not represented by an attorney and has been responsive to requests for records.

14 May 2025

A neighbor who was contacted during the investigation said they believed the vehicle showed body damage some weeks before the reported collision. The neighbor could not give a firm date or describe the damage, so this recollection is being noted and will be checked against the repair history and any available photographs.

6 Jun 2025

Treatment followed a usual course, with physiotherapy sessions tapering as the claimant's range of motion and pain improved. The treating provider's notes show steady progress and a plan to discharge the claimant from active care once goals are met.

14 Jul 2025

The neighbor's recollection was reviewed against the repair records and the photographs taken at the scene, and no record supports earlier damage. Based on the evidence gathered, the claim is progresisng toward evaluation of the neck strain with the treatment and recovery timeline noted.

Recorded Statement

Claim number:	C-1222
Statement of:	Virginia Bell
Taken by:	Darin Tyler
Date:	26 Dec 2024

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision at the intersection in Pasadena, Texas. Please state your full name for the record.

A: I'd rather just go by my first name for now, if that's okay. It's a long day already.

Q: That's fine. Can you describe where you were driving and which direction you were headed when the collision happened?

A: I was heading east through the intersection on a green light. I had been in the left lane and was going maybe thirty-five miles an hour, give or take.

Q: Did you see the other vehicle before the impact?

A: Not really. It came from my right side, from the cross street. I saw a flash of white out of the corner of my eye and then my car got hit on the passenger side. I hit the brakes but there wasn't time.

Q: Were you wearing your seatbelt?

A: Yes, always. The airbag on my side went off, so the belt was doing its job.

Q: Did you feel any injuries right after the collision?

A: My neck snapped to the side and I had a dull ache right away. By that evening it was stiff and I had trouble turning my head to check my mirrors. I went to urgent care the next morning and they diagnosed a neck strain. They gave me a muscle relaxer and told me to use ice and rest.

Q: Are you still experiencing those symptoms?

A: Some days are better than others. Sitting at a desk for long periods makes it worse, and I can't really sleep on my left side anymore.

Q: Did you speak with anyone at the scene about how the collision happened?

A: I told the other driver I didn't see them coming, and I gave the officer the same account. That's about all I remember saying.

Q: Is there anything else you'd like to add to your statement?

A: Just that I'm trying to keep up with my physical therapy appointments, and I want my car repaired properly so I can get back to normal.

Q: Thank you. This concludes the recorded statement.
