Claim Notes

Claim number:	C-1224
Claimant:	Brad Rodriguez
Adjuster:	Alison Sweeney

2024-03-10
Claimant reported a rear-end collision at a slow-moving intersection and a knee injury from the impact. The claim was opened and the vehicle was flagged for an inspection.

2024-04-18
The driver is listed on the policy and was the operator of the insured vehicle at the time of loss. Coverage was in force when the incident occurred, and nothing in the file suggests the damage predates the poilcy start.

2024-05-06
Police report and two independent witnesses place the claimant inside the vehicle at the scene and confirm the sequence of evnets as described. The other driver's statement matches the claimant's account.

2024-05-09
Photos from the scene and the repair estiamte show damage concentrated at the rear of the vehicle, which is largely consistent with the reported impact. No prior damage to the vehicle appears in our records or the inspection notes.

2024-05-21
Claimant gave the same account of the collision in each call and written statement, with no changes to the sequence or location. Knee complaints were reviewed aganist the force of the crash and appear consistent with that kind of impact.

2024-08-07
Medical records show no earlier injury to the same knee and no prior treatment on file for that body area. Treatment followed a typical course, with physical therapy tapering as the claimant's mobility improved.

2024-09-16
Adjuster recommends settlement review based on the documented treatment course and the consistent evidence across the police report, photos, witness statements, and vehicle inspection.

Recorded Statement

Claim number:	C-1224
Statement of:	Brad Rodriguez
Taken by:	Alison Sweeney
Date:	2024-02-06

Q: Thank you for taking the time to speak with me today. This recording is for claim file purposes. Can you please state your full name for the record?

A: Yes, I'm the policyholder's driver in this matter, and I'd rather keep my name off the transcript if that's alright.

Q: That's understood. Can you describe where you were when the collision happened?

A: I was stopped at a traffic light on a main road in Pasadena, Texas, in the right-hand lane. The light had been red for a while and traffic was backed up.

Q: What happened next?

A: The vehicle behind me didn't stop in time. I felt a hard jolt from behind, and my head snapped forward and then back against the seat.

Q: Did you notice any injuries right away?

A: Not really at first. I was more shaken up. But within an hour my right knee started to swell and it hurt when I put weight on it. It caught on the dashboard, I think, when I was thrown forward.

Q: Have you seen a doctor since the accident?

A: Yes, I went to an urgent care clinic the same evening, and they took X-rays and told me to follow up with an orthopedic specialist. I have an appointment set up for later this week.

Q: Were there any witnesses or a police report filed?

A: An officer came to the scene and wrote up a report. I believe there was a passenger in the other car who saw the impact, but I didn't get their information.

Q: Are you currently missing any time from work because of the knee?

A: Yes, I've had to take time off since I can't stand for long periods. I'm still working through the details of how much time that's been.

Q: Thank you. Is there anything else you'd like to add to your statement?

A: Only that I want to be sure my knee gets properly evaluated, and I'd appreciate hearing what the next steps are for my claim.

Q: Understood. Thank you for your cooperation. This concludes the recorded statement.
