Description of the accident (claimant's words)

I was turning left at an intersection in Pearland, Texas, when another vehicle struck the side of my car. I have been having neck pain and stiffness since the collision, and my doctor has diagnosed whiplash. I am the named driver on the policy and I was the only person I remember being in the car, though I have since been asked about this and my recollection of the impact direction has shifted somewhat as I think back over what happened. I want to be accurate about these details, so I am sharing what I can now. I have kept the repair estimate, photos of my vehicle, and my medical notes, and I am willing to provide anything else the adjuster needs to review the claim.
