## Claim Notes

| | |
|---|---|
| **Claim number:** | C-1232 |
| **Claimant:** | Pamela Edwards |
| **Adjuster:** | Alison Sweeney |

8 May 2024
Claim opened after the insured's policy-named driver reported a hit while turning left at an intersection. The claimant states the other vehicle pulled out of a side street and struck the rear passenger side of the claimant's car.

17 May 2024
Confirmed the driver is named on the policy and that the vehicle is listed under this coverage. Assigned the file for a standard review of liability and injury.

28 May 2024
Poilce records and the officer's notes place the claimant inside the vehicle at the time of the collision. No independent witness statements have been obtained to date, and no photographs of the scene have been received from any source.

15 Aug 2024
Spoke with the claimant by phone. The account matched the first call word for word, including the direction of travel and the position of the other car.

30 Aug 2024
Reviewed the damage estimate. The rear quarter panel, bumper bracket and rear wheel well damage is mostly consistent with the impact described in the statement.

31 Aug 2024
A few older scratches appear aolng the lower left door. These may predate this incident, and I have noted them separately so they are not added to the current repair scope without verification.

7 Sep 2024
Received the claimant's report of a back strain. The reported symptoms are plausible for a side impact of this kind and the initial treatment plan is reasonable.

18 Sep 2024
Checked prior claims and medical history. No earlier injury to the same area of the back is on record, and no previous claim involving this vehicle's body area has been found.

8 Nov 2024
A neighbor contacted the office and believes the car already had body damage some weeks befroe the date given by the claimant. The statement is unsigned and has not yet been verified.

12 Nov 2024
Treatment has continued for somewhat longer than is typical for a strain of this type. The provider's notes explain the additional visits as part of a graudal recovery plan, and I have requested the full tretament records.

16 Nov 2024
The claimant is not represented by an attorney and has been given the claims process information in writing. I have explained the next steps and the documents still needed.

1 Dec 2024
File remains open pending the neighbor's account, the scratch assessment, and receipt of the complete treatment records. No coverage decision has been made.

## Recorded Statement

| | |
|---|---|
| **Claim number:** | C-1232 |
| **Statement of:** | Pamela Edwards |
| **Taken by:** | Alison Sweeney |
| **Date:** | 14 May 2024 |

Q: Thank you for agreeing to give this recorded statement. Please state your full understanding of what happened at the intersection in Baytown.

A: I was driving through the intersection and wanted to make a left turn onto the cross street. I waited for a gap in oncoming traffic, and when I started the turn, a vehicle coming from the other direction hit the front driver's side of my car.

Q: Had the oncoming vehicle's headlights been visible to you before you began the turn?

A: Yes, I could see them, but they seemed far enough away. I thought I had time to complete the turn.

Q: Did you have a green signal, a yellow, or was there a left-turn arrow?

A: I believe it was a solid green. I was turning on the green light, though I can't say for sure whether the other driver had a signal.

Q: Where are you feeling injuries right now?

A: My lower back is sore and stiff. The impact pushed me against the seatbelt and my back tightened up. I've had some trouble sitting for long periods and bending over.

Q: Have you seen a doctor or other medical provider since the collision?

A: Yes, I was seen at an urgent care clinic that same day. They examined my back, took some X-rays, and diagnosed a muscle strain. I was told to rest, take anti-inflammatory medication, and follow up with my primary care doctor.

Q: Did you have any back problems before this collision?

A: I had some occasional stiffness from working long shifts, but nothing that stopped me from doing my job or my daily activities.

Q: Is there anything else you would like to add to your statement?

A: No, I think I've covered the main points. I'm willing to provide my medical records if you need them.

Q: Thank you. This concludes the recorded statement.
