Claim Notes

Claim number:	C-1237
Claimant:	Kenneth Joseph
Adjuster:	Darin Tyler

7 Mar 2024

Claimant reported a low-speed collision in a parking lot and stated they were struck while stopped in a marked space. Claimant is not represented by counsel. Neck and back strain reported; initial recorded account is consistent with the vheicle damage and the force involved.

12 Mar 2024

Police report, two independent witnesses, and the other driver all confirm the accident occurred as described and that the claimant was in the vehicle at the time. Photos taken at the scene are on file.

10 Apr 2024

Claimant has given the same account in every conversation so far, with no changes to the sequence of events. Claimant's prior medical history notes a minor strain in the same area years ago that healed completely without lasting effects.

16 Jun 2024

Treatment has followed a typical course for this type of injury, with symptoms easing steadily as the claimant improved. Care has been tapering off in line with recovery. Reviewed the timeline of treatment against the reported injury and found it reasonable.

6 Sep 2024

A dated inspection photo from before this collision shows the same dent on the vehicle, so part of the damage predates this loss. It is not yet clear whether all of the damage in the current estimate came from this impact. Referred to the appraiser for a line-by-line review.

15 Oct 2024

Nothing in the file suggests the damage occurred before the coverage start date. The driver is named on the policy. Claim remains open pending the appraiser's apportionment of the prior damage and final medical review.

Recorded Statement

Claim number:	C-1237
Statement of:	Kenneth Joseph
Taken by:	Darin Tyler
Date:	3 Mar 2024

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the parking lot collision you were involved in in Pearland, Texas. Please state your full name for the record.

A: Sure. I'd rather just go by first name and last initial for this, if that's okay.

Q: That works. Can you describe where you were when the collision happened?

A: I was in a parking lot at a shopping center, pulling out of a row of spaces near the main entrance. It was a busy afternoon and the lot was pretty crowded.

Q: What were you doing right before the impact?

A: I had just put my car in reverse and was backing out slowly. I checked my mirror, saw nothing, and then the other vehicle came around the end of the aisle and hit my rear passenger side.

Q: How fast would you estimate you were going?

A: Maybe two or three miles an hour. I was barely moving.

Q: Did you have any contact with the other driver afterward?

A: Briefly. We exchanged insurance information and he said he didn't see me coming either.

Q: Were you injured in the collision?

A: Yes. My neck snapped forward and then back, and my lower back has been sore ever since. I've been having headaches too, and it's hard to turn my head to check blind spots when I drive.

Q: Have you sought medical treatment?

A: I went to an urgent care clinic the same day and they diagnosed a neck and back strain. I've been doing physical therapy twice a week since then.

Q: Are you still experiencing those symptoms?

A: Yes, they've improved a little but I still have stiffness and pain, especially after sitting for long periods at work.

Q: Thank you. Is there anything you'd like to add to your statement?

A: No, I think that covers it. I just hope the claim can be resolved so I can get back to normal.

Q: Thank you for your time. This concludes the recorded statement.
