Description of the accident (claimant's words)

I was backing out of a parking space at a shopping center in Pearland, Texas, moving slowly with my brake lights on, when the car behind me rolled into the rear of my vehicle. There was a sharp jolt and I felt my head snap forward, then back. I stayed in the driver's seat for a few minutes before getting out to exchange information with the other driver. Since that day I have had stiffness in my neck and a dull ache across my lower back that gets worse after long periods of sitting. I have described what happened the same way each time I have spoken with the adjuster, the medical staff, and the people at my employer, and I am the named driver on the policy listed for this vehicle. I am attaching photos of the bumper damage and the parking lot layuot along with the visit notes from my treatment so far.
