Officer's narrative

Officers responded to a two-vehicle collision in Baytown, Texas, where Driver 1 was turning left across traffic when the front of Driver 2's vehicle struck the driver's side. Driver 1 was operating the vehicle with Passenger seated beside them. Driver 1 reported neck and back strain at the scene and was evlauated by medical personnel. The described injuries are consistent with the direction and force of the impact. Driver 2 stated that the collision occurred as Driver 1 described, and two independent witnesses gave statements that match that account. Scene photographs show damage that is largely consistent with the reported impact pattern. Officers confirmed Passenger was present in the vehicle at the time of the crash, and both witnesses identified Passenger as an occupant. Driver 1 is listed as the named insured on the policy covering the vehicle. Responding officers found no indication of prior damage to the vehicle, and none was reported by any party. No citations were issued at the scene pending further review of the statements and photographs.
