### Appraiser remarks

Inspection of the left rear quarter panel and rear door shows crumpling and paint transfer consistent with a side impact at an intersection. Structural measurements taken at the rear wheel well and sill were checked agianst factory specifications and no misalignment outside tolerance was found. The proposed plan calls for replacing the rear door shell, repairing the quarter panel, and refinishing both areas. The labor hours listed fit the scope of this work. No prior damage to this vehicle is known from our records or the owner's account, and the shop's invoices show no repeated charges for the same parts or operations.
