Claim Notes

Claim number:	C-1243
Claimant:	Jonathan Cox
Adjuster:	Christopher Wong

April 18, 2025
First notice of loss received from the insured's driver reporting a rear-end collision at a signalized intersection, with the claimant's vehicle stopped in front. A claim file has been opened and the policy was confirmed active with the driver listed as a named driver.

May 4, 2025
Spoke with the claimant's representing attorney, who confirmed the claimant was in the vehicle at the time of the collision and is reporting neck pain consistent with whiplash. A letter of representation is on file and all further contact will go through counsel.

June 3, 2025
Reviewed the police report, which confirms the claimant's vehicle was stopped and was struck from behind, and the responding officer documented the claimant at the scene. No independent witnesses were identified in the report.

June 11, 2025
Photographs of both vehicles were received and reviewed. They confirm the general location of the damage, and the rear damage on the claimant's vehicle is mostly in line with the impact described by the insured's driver.

August 1, 2025
Took a recorded statement from the claimant through counsel. The account of how the collision happened matches what was described in the first notice, and the claimant has given the same account in every conversation so far.

August 23, 2025
Ran a prior-claims and records check on the claimant's vehicle. No earlier damage to the same areas is known, and nothing in the file suggests the damage predates the coverage start date on the policy.

August 24, 2025
Received the initial medical records. The treatment plan is a usual course for a soft-tissue neck injury of this kind, and the reported injury matches the type and force of the crash well. No eralier injury to the same body area is known from the records provided.

August 26, 2025
Requested an independent medical review of the records to check the treatment against the reported injury. The reviewer's preliminary comments indicate the care has been reasonable for the diagnosis.

September 1, 2025
Follow-up treatment notes show the claimant's physical therapy visits have been tapering off as symptoms improve. The provider's notes describe steady progress with fewer complaints at each visit.

October 30, 2025
Discussed the file status with the claims supervisor. Liability is clear on the insured's side, and the damage and injury picture is consistent with the reported facts, so the claim is moving toward a settlement evaluation.

November 18, 2025
Sent a status update to counsel requesting the final bills and the treatment summary. Settlement evaluation will be completed once those documents are received.

Recorded Statement

Claim number:	C-1243
Statement of:	Jonathan Cox
Taken by:	Christopher Wong
Date:	April 8, 2025

Q: Thank you for taking the time to speak with me today. This call is being recorded for claim purposes. Can you confirm you're comfortable continuing?

A: Yes, that's fine.

Q: Can you describe where you were when the collision happened?

A: I was stopped at a traffic light in Houston, Texas, in the right lane of a main road. Traffic had slowed down ahead of me.

Q: What happened next?

A: The car behind me didn't stop in time. I felt a hard jolt from the back, and my head snapped forward and then back against the headrest.

Q: Did you get out of your vehicle at the scene?

A: I got out briefly, but my neck was already stiff and I felt dizzy, so I sat back down until the police arrived.

Q: Did the other driver say anything about what happened?

A: They apologized and said they had looked down at their phone for a second. They didn't seem hurt.

Q: Did you seek medical attention?

A: Yes, I was taken to an urgent care clinic that evening. They did X-rays and told me I had soft tissue injuries consistent with whiplash.

Q: What symptoms are you still experiencing?

A: I have neck pain, stiffness when I turn my head, and headaches most afternoons. Sitting at a desk for long periods makes it worse.

Q: Have you started any treatment since then?

A: I'm seeing a physical therapist twice a week, and my doctor has me on anti-inflammatory medication.

Q: Is there anything else you'd like to add?

A: Just that I want to get back to normal as soon as possible. I'm willing to provide my medical records.

Q: Thank you. We'll follow up with you in writing. Have a good day.

A: Thank you, you too.
