Bodily Injury Unit

Claim Notes

Claim number:	C-1244
Claimant:	Heather Curtis
Adjuster:	Alison Sweeney

08/08/2023
The claim was reported by the insured's attorney, who advised that the insured was rear-ended at a traffic light and has since been diagnosed with a concussion. The file was opened and an acknowledgment letter was sent to counsel.

09/07/2023
Confirmed the driver is named on the policy and that coverage is in force on the date of loss. Requested the police report, which lists the claimant as a passenger in the vehicle at the time of the impact.

09/23/2023
Obtained the police report and two independent witness statements. Both witnesses and the other driver describe the collision in the same way as the insured, and the scnee photos are consistent with that account.

10/11/2023
Reviewed the repair estimate and photos of the vehicle. The rear damage is consistent with the impact described by all parties.

11/02/2023
Received the initial medical summary from counsel. The reported concussion is a plausible injury for a colilsion of this type, and treatment has run somewhat longer than is typical for this diagnosis.

11/28/2023
Requested prior medical records from the claimant's providers. The records show ongoing treatment for the same condition before the crash, and most of the current complaints appear to originate from that earlier history.

01/06/2024
The insured provided a recorded statement with additional details not included in the first report. The core account of the collision did not change.

01/31/2024
A neighbor contacted the office and said the vehicle looked damaged several weeks before the stated date of loss. No prior damage is known from our file or the repair history, so the statement is bieng noted but not yet verified.

02/18/2024
Spoke with counsel to request clarification of the prior treatment history and the timeline of the neighbor's observation. Counsel stated that the eariler condition was resolved before the crash.

02/20/2024
File remains open pending review of the complete medical records and the neighbor's statement. Next step is a referral to the claims supervisor for evaluation of the bodily injury component.

Recorded Statement

Claim number:	C-1244
Statement of:	Heather Curtis
Taken by:	Alison Sweeney
Date:	07/06/2023

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim purposes. Can you confirm you're comfortable continuing?

A: Yes, that's fine.

Q: Please describe where you were when the collision happened.

A: I was driving on a main road in Sugar Land, heading toward a shopping center. Traffic had slowed down ahead of me because of a light change, so I came to a stop behind a car at the intersection.

Q: What happened next?

A: About a few seconds after I stopped, I felt a hard jolt from behind. My head snapped forward and then back against the headrest. I didn't see the other vehicle coming at all.

Q: Did you exit your vehicle or speak with the other driver at the scene?

A: I got out briefly, but I felt dizzy and had a headache, so I sat back in my car. The other driver came over and apologized. I don't remember everything he said.

Q: Did you seek medical attention?

A: Yes, I went to an urgent care clinic that afternoon. They told me I might have a concussion and recommended I rest and avoid screens for a while.

Q: Are you still experiencing symptoms?

A: Yes. I still get headaches, especially in the evenings, and I've had trouble concentrating at work. Bright lights bother me more than usual.

Q: Have you been seen by a physician since then?

A: I have a follow-up appointment scheduled with my primary care doctor next week.

Q: Thank you. Is there anything you would like to add to your statement?

A: Only that I want to make sure my medical bills and time off work are covered. I'm still trying to recover, and it's been harder than I expected.

Q: Understood. Thank you for your time today. We will be in touch with next steps.

A: Thank you.
