Description of the accident (claimant's words)

I was stopped at a red light on a busy road in Sugar Land, Texas, when the car behind me struck the rear of my vehicle. The impact was sharp enough to snap my head forward and back. I got out to check the damage, but I felt dizzy and had a headache that kept getting worse, so I sat down on the curb until the emergency crew arrived. At the hospital I was told I had a concussion and needed rest and follow-up care. Since the accident I have recalled a few more small details, such as the other driver's hand gesture and the color of the traffic lights, but the core account of what happened has not changed. I am the named driver on the policy and I am providing this statement to support my claim.
