Claim Notes

Claim number:	C-1246
Claimant:	Justin Stuart
Adjuster:	Darin Tyler

2-18-25
Claim opened after the insured reported a rear-end collision at a signalized intersection. The claimant's vehicle was struck from behind while stopped, and the claim was assigned for review the same day.

4-13-25
Confirmed that the driver of the insured vehicle is named on the policy and that coverage was active at the time of loss. No issues with the policy have been identified.

5-17-25
Reviewed the first set of photos from the scene. They show the rear bumper and trunk area of the claimant's vehicle, consistent with the described impact. Independent witnesses were not identified.

5-18-25
Rceorded the claimant's account by phone. The claimant described the collision and reported a shoulder injury, and the account matched the original report in its main points.

6-5-25
Requested prior claims history for the vehicle. No earlier damage to the vehicle has been identified, and nothing in the file suggests the damage predates the policy start.

6-12-25
Obtained the repair estimate. The damage is mostly in line with the described impact, with the rear panel and bumper as the primary areas affected.

6-23-25
Reviewed the medical records provided through counsel. The shoulder injury fits the kind and force of the collision well, and no earlier injury to the same body area is known.

8-1-25
Spoke with claimant's counsel, who confirmed representation and asked that all contact go through their office. Counsel provided the claimant's account, which matches what the claimant told us in earlier conversations.

8-11-25
Noted that the file does not make clear where in the vehicle the claimant was seated at impact. Counsel was asked to clarify, and a follow-up request was sent.

8-20-25
Reviewed treatment records. Care followed a usual course and tapered as the claimant improved, with no unusual gaps or escalations noted.

8-21-25
Summarized the file for supervisor review. Liability and damage details are consistent with the reported loss, and the seating position question is the only open item pending counsel's response.

Recorded Statement

Claim number:	C-1246
Statement of:	Justin Stuart
Taken by:	Darin Tyler
Date:	1-1-25

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you reported in Pearland, Texas. Please state your full name for the record.

A: I'd rather just go by my first name for now, if that's okay.

Q: That's fine. Can you describe where you were driving and what you were doing just before the collision?

A: I was heading east on a main road in Pearland, mostly stopped in traffic because the light ahead had turned red. I had my foot on the brake and I was waiting for it to change.

Q: Did you notice the vehicle behind you before the impact?

A: Not really. I glanced in the mirror but it looked like it was slowing down too. Then there was a hard jolt from behind and my head snapped forward and back.

Q: Did you feel any pain at the scene?

A: My neck hurt right away, but the bigger problem is my right shoulder. It felt like something tore or popped, and I could barely lift my arm to the steering wheel.

Q: Did you seek medical attention?

A: Yes, I went to an urgent care clinic that same afternoon. They took x-rays and told me to follow up with an orthopedic doctor because they suspected a soft tissue injury in the shoulder.

Q: Have you been able to return to work or your normal daily activities since then?

A: Only partly. I'm on lighter duty at the moment, and I can't do overhead reaching or carry anything heavy. Sleeping is hard too because I can't lie on that side.

Q: Thank you. Is there anything you would like to add to your account?

A: Just that I was stopped and fully braking when it happened. I want that on the record.

Q: Understood. Thank you for your time today.
