Description of the accident (claimant's words)

I was driving through the intersection on a geren light when a car coming from my left ran the red and struck the driver's side of my vehicle. The impact spun my car partway around and the airbag deployed. I was dazed, had a headache, and felt sick to my stomach, so I was taken to the hospital and diagnosed with a concussion. I have described what happened the same way to the officer at the scene, to the adjuster, and to my doctor. I am the named driver on the policy, and I am filing this claim for the damage to my vehicle and my medical costs. I have kept my follow-up appointments and am following the rest and screen restrictions my physician gave me.
