Claim Notes

Claim number:	C-1248
Claimant:	Charles Johnson
Adjuster:	Christopher Wong

03/24/2024
Claim received for a low-speed collision in a parking lot involving the insured vehicle and a second vehicle. The claimant is represented by counsel, and all further contact will go through the attorney's office.

05/03/2024
Reviewed the first notice of loss and the initial statements. The other driver confirms the accident happened as described, and the scene photos are consistent with that account.

05/06/2024
Spoke with the claimant's attorney to confirm the injury claim is for a knee injury. The attorney has been asked to provide the medical records and any prior treatment history for that area.

06/17/2024
Obtained the police report, which places the claimant inside the vehicle at the time of impact. Two witness statements also agree with the sequence of events as reported.

06/19/2024
Inspected the vehicle. The damage pattern matches the impact described by all parties, and no earlier damage to the vehicle is known from prior records or the body shop history.

06/29/2024
Reviewed the claimant's statements from each contact so far. The account has stayed the same in every conversation, with no change in the sequence of events or the position of the vehicles.

09/03/2024
Received the initial medical report. It is not yet clear whether the knee injury was caused by this crash, and the treating provider has not yet linked the condition to the collision.

09/14/2024
Records from the claimant's prior care show a small strain in the same area sveeral years ago. That strain healed fully, and the file notes it for comparison purposes only.

09/17/2024
Treatment has followed a usual course, with visits tapering as the patient improved. The billing and tretament dates have been logged and are being reviewed against the recovrey timeline.

09/30/2024
Confirmed that nothing in the file suggests the vehicle damage occurred before the coverage start date. The driver is a household member of the policyholder and is covered as such under the policy.

10/20/2024
Causation for the knee injury remains open pending the full medical review. Next steps are to request the complete treatment notes from the provider and to schedule a follow-up with the attorney's office.

Recorded Statement

Claim number:	C-1248
Statement of:	Charles Johnson

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the parking lot collision you reported in Baytown. Can you confirm you're comfortable being recorded?

A: Yes, that's fine.

Q: Please describe in your own words what happened when the collision occurred.

A: I was backing out of a parking space near the store entrance. I checked my mirrors and didn't see anything, but as I reversed, the other vehicle came around the end of the row and struck the rear passenger side of my car.

Q: How fast would you estimate you were going at the time of impact?

A: I was barely moving, maybe a walking pace. It was a slow back-up.

Q: Where were you looking just before the impact?

A: Mostly over my right shoulder, toward the open lane behind me. I didn't see the other car until it was already close.

Q: Were you injured in the collision?

A: Yes. My right knee hit the dashboard and the door frame when the impact jolted the car. It's been swollen and sore since then.

Q: Have you sought medical treatment for the knee?

A: I went to an urgent care clinic the same afternoon. They took X-rays and told me to rest it, use ice, and follow up with my regular doctor if it doesn't improve.

Q: Are you currently experiencing any limitations because of the knee?

A: Yes, I have trouble with stairs and I can't drive for long periods because I can't keep my leg bent comfortably.

Q: Is there anything else you'd like to add about the collision or your injuries?

A: Only that I'm willing to provide my medical records and any photos I took at the scene.

Q: Thank you. This concludes the statement.

A: Thank you.
