Claim Notes

Claim number:	C-1251
Claimant:	Jennifer Watts
Adjuster:	Jerry Hanson

4-25-24
Claim reported by the insured's representative following a collision at an intersection where our driver was turning left across oncoming traffic. The claimant's attorney has requested that all contact be routed through their office.

5-17-24
Reviewed the police report, which confirms the claimant's vehicle was involved and that the claimant was present in the driver's seat at the scene. Two independent witnesses and the other driver describe the collision the same way, and scene photos are consistent with that account.

7-21-24
Inspected the vehicle damage. The pattern and location of the impact match the described collision, and there is no sign of earlier damage to the same areas. Nothing in the file suggests the damage predates the policy's coverage start.

8-27-24
Confirmed the driver is listed on the policy as a named driver. The claimant has given the same account of events in each conversation so far, with no changes in the sequence of events.

9-9-24
Medical records show a shoulder injury, which fits the type and force of impact described. No prior injury to the same body area is known from the claimant's history or available records. Treatment has followed a typical course and eased as the claimant improved.

10-18-24
Based on the documentation reviewed, the injury, vehicle damage and liability picture are consistent with the reported loss. Claim remains open pending final medical updates and settlement discussions with counsel.

Recorded Statement

Claim number:	C-1251
Statement of:	Jennifer Watts
Taken by:	Jerry Hanson
Date:	4-10-24

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you reported. Please state your full name for the record.

A: I'd rather just give you the facts, but fine. I'm the driver of the blue sedan that was involved in the accident.

Q: Understood. Can you describe where you were and what you were doing when the collision happened?

A: I was in Houston, on a multi-lane road, and I was turning left at an intersection. I had my signal on and I was watiing for a gap in oncoming traffic.

Q: How did the other vehicle come into the picture?

A: A pickup coming from the opposite direction hit the front passenger side of my car as I was completing the turn. I didn't see it until the impact. The light had been green for my direction, I think, but I'm not totally sure about that.

Q: Were you wearing a seatbelt?

A: Yes, I was.

Q: Did you have any injuries at the scene?

A: My left shoulder hit the door pretty hard. It's been sore and stiff since then. I didn't feel much at first because of the adrenaline, but by that evening it was really bad.

Q: Have you seen a doctor or received any treatment for the shoulder?

A: I went to urgent care the next day. They took X-rays and told me to rest it and follow up with an orthopedic specialist. I have an appointment scheduled but haven't been yet.

Q: Is there anything else you'd like to add about the collision?

A: Just that I was driving carefully and I believe the other driver was going faster than the limit. That's my understanding from what I saw in the mirror before the impact.

Q: Thank you. That concludes the statement.
