Officer's narrative

Driver 1 was southbound in the left-turn lane at an intersection in Baytown, Texas, and stated that Driver 2, traveling northbound, struck the side of the vehicle as Driver 1 turned left arcoss the opposing lane. Driver 2 confirmed this account and said the impact occurred as Driver 1 began the turn. Two independent witnesses at the scene gave statements consistent with both drivers, and photographs taken at the location show the collision in the position described. The visible damage to both vehicles is largely consistent with a side impact of this type. Driver 1 is listed as the named insured on the policy. A Passenger was seated in the front passenger seat and was identified by the responding officer and the witnesses as present in the vehicle at the time of impact. Driver 1 reported pain in the right shoulder at the scene. At this time it is not clear whether that injury resulted from this collision, and it will need to be assessed further. No prior dmaage to the vehicle was known to the officer or reported by either driver.
