Claim Notes

Claim number:	C-1254
Claimant:	Marcus Davidson
Adjuster:	Valerie Rodriguez

03/28/2023

Claim opened for a parking lot collision in which the insured's vehicle was struck while stationary. The claimant reports neck and back strain and is represented by counsel, so all contact will be routed through the attorney's office from this point forward.

05/15/2023

Reviewed the photorgaphs submitted with the first notice of loss. They confirm several details of the scene and the position of the vehicles, though no independent witnesses have come forward to describe the collision itself. The damage to the vehicle appears consistent with the impact described.

06/18/2023

Obtained the policy record, which names the driver involved as a listed driver. Coverage was in force at the time of loss, and there is nothing in the file to suggest the damage predates the start of the policy period. No prior damage to the vehicle is on record.

07/25/2023

Spoke with the claimant's representative. The claimant's account of the event has remained the same in every conversation so far. The police report and statements from others on scene place the claimant inside the vehicle at the time of impact.

07/27/2023

Medical records reviewed. The reported injuries fit the type and force of the collision well, and no earlier injury to the same area of the body is known. Treatment followed a typical course and tapered as the claimant improved.

09/02/2023

Based on the medical and physical evidence, the claim appears consistent with the reported loss. File will move to evaluation of the bodily injury component, with the attorney's office copied on the next status update.

Recorded Statement

Claim number:	C-1254
Statement of:	Marcus Davidson
Taken by:	Valerie Rodriguez
Date:	02/25/2023

Q: Thanks for taking the time to speak with me today. This reocrded statement concerns the parking lot collision you reported in Pearland. Before we begin, do you agree to have this conversation recorded?

A: Yes, that's fine.

Q: Can you tell me where you were when the collision happened?

A: I was in a parking lot at a shopping center in Pearland. I had just pulled into a row looking for a space near the entrance.

Q: What were you doing right before impact?

A: I was backing out of a space slowly. I checked my mirror and saw nothing, but when I started to reverse, a vehicle came around the end of the row from my right side.

Q: How fast would you estimate you were moving?

A: Maybe walking pace, a few miles an hour. I was barely moving.

Q: Did you see the other vehicle before the contact?

A: Only for a second. It was moving faster than I expected for a parking lot, and I tapped the brake, but there wasn't time to stop completely.

Q: Where did the two vehicles make contact?

A: The rear corner of my car hit the front passenger side of the other vehicle.

Q: Did you feel any injury at the scene?

A: My neck felt stiff and my lower back ached, but I thought it would pass. It got worse over the next day or two.

Q: Have you sought medical treatment since the collision?

A: Yes, I went to a clinic and was diagnosed with a neck strain and a lower back strain. I've been doing physical therapy twice a week.

Q: Is there anything you would like to add or correct in your statement?

A: No, I think that covers it. I'm still having some stiffness, so I'd like to keep my medical records updated for you.

Q: Thank you. This concludes the recorded statement.
