Claim Notes

Claim number:	C-1255
Claimant:	Erin Flores
Adjuster:	Jerry Hanson

2-1-25
Claimant reported a low-speed contact in a parking lot and stated they are not represented by an attorney. The named driver on the policy is the one who reported the loss.

3-22-25
The reported neck strain fits the kind and force expected from this type of impact. The vehicle damage is consistent with the described contact, and no earlier damage to the vehicle is known.

5-2-25
The police report and witnesses confirm the claimant was in the vehicle at the lot. Nothing suggests the damage happened before the coverage start.

7-6-25
The claimant has told the same account in every conversation so far. Treatment has run somewhat longer than usual for this injury. Records also show treatment for the same neck area within the last two years, and the provider notes that this condition adds to the current complaints.

7-7-25
A nearby camera covers the location but shows no collision there at the reported time. This goes against the claimant's account, so I have requested the full footage export before drawing any conclusions.

9-20-25
Coverage is confirmed active and the driver is listed on the policy. The file stays open pending the footage review and the complete medical records, and I will follow up with the claimant once both are in.

Recorded Statement

Claim number:	C-1255
Statement of:	Erin Flores
Taken by:	Jerry Hanson
Date:	2-6-25

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim file purposes. Can you please state your full name for the record?

A: Sure. I'd rather not give my full name on a recording, so just put down that I'm the driver of the vehicle involved.

Q: That's fine. Can you tell me where the collision happened?

A: It was in a shopping center parking lot in Pasadena, Texas. I was pulling out of a space near the main entrance.

Q: What were you doing right before the impact?

A: I had checked my mirror, saw the lane was clear, and started backing out slowly. The other car came from my right side, going pretty fast down the aisle, and hit the rear quarter panel of my car.

Q: Were you moving when the impact happened?

A: Yes, I was rolling backward at maybe three or four miles an hour.

Q: Did you notice any injuries right after the collision?

A: My neck felt stiff almost immediately. I didn't think much of it at first, but by the next morning I had a dull ache across the back of my neck and some tightness going up into my head.

Q: Have you sought any medical treatment since the collision?

A: Yes, I went to urgent care the following day. They diagnosed a neck strain and gave me a muscle relaxer and told me to rest and use ice.

Q: Are you still experiencing symptoms?

A: Some days are bteter than others. Turning my head to the left is the hardest part, and I've had trouble sleeping a few nights.

Q: Thank you. Is there anything else you'd like to add to your statement?

A: No, I think that covers it. I just want my car repaired and my neck to get back to normal.

Q: Thank you for your cooperation. We'll be in touch with next steps.
