Description of the accident (claimant's words)

I was backing out of a parking space at a shopping center in Pasadena, Texas, moving slowly, when the rear of my car struck the side of another vehicle that was coming down the aisle. I stopped immediately, checked on the other driver, and exchanged information with them before leaving the lot. Since that afternoon I have had stiffness and soreness in my neck, which I believe came from the impact as my head snapped forward and back. I have described the events the same way each time I have spoken about them, whether to the other driver, to the officer who came to the scene, or to the adjuster. I am the named driver on this policy and was operating my own vehicle at the time. I have seen a physician about the neck strain and am following the recommended treatment plan. I am providing this statement so the claim can be reviewed, and I am glad to supply any furtehr details that would help.
