Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1259
Claimant:	Denise Turner
Adjuster:	Chelsea Hebert

2 Nov 2023
The insured driver reported a low-speed head-on collision, and the policy shows the driver as a named insured on the account. The claimant is represented by counsel, so all furtehr contact will go through the attorney's office.

20 Nov 2023
The police report and people at the scene place the claimant inside the vehicle at the time of impact. No independent eyewitness saw the collision itself, so the account rests on the parties and the physical evidence.

26 Jan 2024
Photgoraphs taken at the scene show damage that matches the described impact, and the repair estimate lines up with those images. No earlier damage to the vehicle is known from our records or the prior claims search.

23 Feb 2024
The claimant has given the same account of events in every conversation so far, including the first recorded statement and later calls with the attorney. A wrist fracture was reported, and the injury fits the kind and force expected from a crash of this type.

24 Feb 2024
A neighbor told our field contact that the car looked damaged some weeks before the claimed loss date. This has not been confirmed by any other source, and I have asked for the neighbor's account in writing to see what they actually observed.

9 Mar 2024
Treatment followed a usual course for this type of fracture and tapered off as the claimant improved. No prior injury to the same body area is known from the medical records requested so far, and the file remains open pending the final treatment summary.

Recorded Statement

Claim number:	C-1259
Statement of:	Denise Turner
Taken by:	Chelsea Hebert
Date:	20 Jul 2023

Q: Please state your full name for the recording.

A: I'd rather just say I'm the driver of the blue sedan. You can note my details from the file.

Q: Understood. Can you describe where you were when the collision happened?

A: I was in Pasadena, Texas, heading down a two-lane road in the early afternoon. Traffic was light and I was going maybe twenty-five miles an hour.

Q: What happened next?

A: The other car drifted into my lane and we hit nearly head-on. It wasn't a big impact, more like a hard shove. Both cars came to a stop almost right away.

Q: Did you see the other vehicle before it crossed into your lane?

A: Not really. I saw headlights coming, and then they were already in front of me. I braked and turned the wheel, but there wasn't time to do much.

Q: Were you injured?

A: My left wrist hit the steering wheel and the airbag went off. The pain was bad right away. They took me to the hospital and the doctor said the wrist was fractured. I've got a cast on it now and I'm wearing a brace when I'm not sleeping.

Q: Have you been able to work since the accident?

A: Not in my usual job. I drive for a living and I can't grip the wheel for long stretches with this cast, so I'm on leave for now.

Q: Did you receive any treatment beyond the hospital visit?

A: Yes, I've been to my family doctor and I'm scheduled with a hand specialist next week. I'm keeping all the paperwork together.

Q: Is there anything else you would like to add?

A: Only that I'm cooperating fully and I'd appreciate a call when you've reviewed the other driver's statement.

Q: Thank you. This concludes the recorded statement.

A: Thank you.
