Claim Notes

Claim number:	C-1260
Claimant:	Michele Ramirez
Adjuster:	Alison Sweeney

05/17/2023
First notice of loss received from the claimant describing a rear-end collision at a low-speed intersection. The claimant reports a wrist fracture and states the claimant was driving the insured vehicle at the time of impact. The driver is named on the policy, and the claim has been opened for review.

06/18/2023
Spoke with the claimant by phone to confirm the sequence of events. The account given matches what was described at first notice, and the claimant was consistent on every point discussed, including the direction of travel and the vehicle position at impact.

07/10/2023
Police report obtained and reviewed. It confirms the claimant was in the vehicle at the scene. No independent witnesses were identified in the report or during follow-up calls, so the account rests on the parties and the photos.

08/11/2023
Reviewed photographs submitted by the claimant. They confirm several details of the collision, and the damage to the rear of the vehicle is mostly in line with the described impact. No earlier damage to the vehicle is known from prior claims or inspection notes.

11/14/2023
Medical records received. The reported wrist fracture is consistent in kind and force with a rear-end impact of this type. Treatment followed a usual course and tapered off as the claimant improved. Records also note a minor strain in the same area years ago, which healed fully and does not appear to affect the current claim.

12/01/2023
Checked the coverage history. Nothing suggests the damage occurred before the policy coverage began, and the policy period covers the date of loss.

12/15/2023
Claim assessment updated. The collision and injury appear to be genuine and consistent with the evidence available. Next step is to finalize the medical bill review and send the claimant a settlement letter, since the claimant is not represented.

Recorded Statement

Claim number:	C-1260
Statement of:	Michele Ramirez
Taken by:	Alison Sweeney
Date:	05/22/2023

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision you were involved in in Sugar Land, Texas. Do you understand that this conversation is being recorded?

A: Yes, I understand.

Q: Please state your full name and the best number to reach you.

A: I'd rather just keep it to the accident details for now, if that's okay.

Q: That's fine. Can you describe where you were and what you were doing when the collision happened?

A: I was stopped at a traffic light on a main road in Sugar Land, waiting for the light to turn green. I had my foot on the brake and I was facing forward in my lane.

Q: Did you notice the other vehicle approaching before the impact?

A: Not really. I saw it in my mirror a second before it hit me, but there wasn't time to do anything about it.

Q: What happened at the moment of impact?

A: The other car hit the rear of my car pretty hard. My head snapped back and then forward, and I grabbed the steering wheel with my rgiht hand. I felt a sharp pain in my wrist right away.

Q: Did you get out of the vehicle or speak with the other driver?

A: I got out to check on my car. The other driver was apologetic and said he had been looking at his phone. We exchanged information and the police came out.

Q: Have you sought medical teratment since the collision?

A: Yes. I went to an urgent care clinic that same day, and they took x-rays. The doctor told me my wrist was fractured and put it in a cast. I've had a follow-up visit since then.

Q: Is there anything else you would like to add to your statement?

A: No, I think that covers it. I'm still in pain, so I'd appreciate it if we could move things along.

Q: Thank you. That concludes the recorded statement.
