Description of the accident (claimant's words)

I was changing lanes on a multi-lane road in Katy, Texas, checking my mirror and signaling first, when a vehicle in the lane beside me moved over and clipped the side of my car. The contact pushed my vehicle toward the median before I could correct, and I felt a hard jolt through the driver's seat. I stpoped on the shoulder and waited for the other driver to pull over. Since then I have been dealing with a concussion, including headaches, dizziness, and trouble concentrating. Looking back, I have remembered a few more small details about the moment of impact, but the core of what happened has not changed since I first described it. I am the named driver on this policy and I am providing this account so the claim can be processed.
