Claim Notes

Claim number:	C-1262
Claimant:	Matthew Hardy
Adjuster:	Jerry Hanson

2024-03-25
Claim received for a collision at an intersection where the insured vehicle was turning left and was struck in the side by another vehicle. The claimant reports a shoulder injury and is not represented by an attorney.

2024-04-17
Confirmed that the driver is named on the policy and that the policy was in force at the time of loss. Nothing in the file suggests the damage predates the coverage period.

2024-04-30
Obtained the police report, which places the claimant inside the vehicle at the time of impact. Responding officers also noted the claimant's presence in the vehicle when they arrived.

2024-05-05
Reviewed the photographs taken at the scene. They confirm several details of the account, including the position of the vehicles after impact.

2024-06-17
Inspected the vehicle damage. The pattern and location of the damage match the impact described by the claimant.

2024-06-26
Checked prior claim history on the vehicle and found no earlier damage to the same areas.

2024-07-31
Interviewed the claimant, who described the collision consistently with the first statement. The claimant added a few minor details about the traffic signal and speed, but the core account has not changed.

2024-08-10
Searched for independent witnesses. None were identified, so the account rests on the photographs, the physical damage, and the police findings.

2024-08-28
Reviewed the medical records. The shoulder injury is consistent in type and severity with the force of a side impact of this kind.

2024-09-08
Noted that the claimant had a minor shoulder strain several years ago in the same area, which healed completely with no lasting limitation. The current treatment has been assessed separately from that earlier episode.

2024-09-26
Treatment followed a typical course, with physical therapy and follow-up visits. Symptoms and treatment frequency have tapered as the claimant has improved.

2024-10-01
Current status: liability and damage are supported by the file, and the injury claim is being evaluated against the treatment records and recovery progress. Reserve reviewed; file to remain open pending final medical update.

Q: Thanks for taking the time to speak with me today. This call is being recorded. Can you confirm you're comfortable continuing?

A: Yes, that's fine.

Q: Could you walk me through what happened at the intersection?

A: I was making a left turn at a signal, heading into a shopping center. The light had changed to green, and I waited for oncoming traffic to clear before I started moving.

Q: Did you see the other vehicle before the impact?

A: Not clearly. I saw headlights when I was partway through the turn, but I thought I had enuogh room. The other car hit the front passenger side of mine.

Q: How fast were you going when you started the turn?

A: Very slowly, probably under ten miles an hour. I was almost stopped at the point where I committed to the turn.

Q: Were you wearing your seatbelt?

A: Yes, I was.

Q: Can you describe your injuries?

A: My right shoulder is hurting quite a bit. I felt a sharp pain right when the airbag went off, and it has gotetn worse since. I've been doing physical therapy twice a week, and I can't lift my arm above shoulder height without pain.

Q: Have you seen a doctor about the shoulder?

A: Yes, I went to urgent care that same evening and then saw my primary care doctor later in the week. They ordered an MRI.

Q: Is there anything else you'd like to add about the accident?

A: Only that I've been careful and I believe I followed the signal correctly. I'm hoping this can be resolved so I can get back to normal.

Q: Thank you. That concludes our recorded statement.
