2023-10-01
Claim opened after a low-speed head-on collision reported by the insured's driver, who is named on the policy. The claimant has retained counsel, and all further contact is being routed through the attorney's office.

2023-10-27
Police report obtained. The responding officer recorded the claimant as present in the vehicle at the scene, and the report describes the impact as head-on at low speed.

2023-11-30
Scene photographs and two independent witness statements were collected. Both witnesses describe the collision in the same sequence as the other driver's account.

2023-12-22
Spoke with the other driver, who confirmed the accident happened as described and had no disagreement about the order of events.

Inspected the vehicle. The front-end damage pattern lines up with the reported impact, and the repair estmiate reflects that same area and force.

2024-02-23
Ran a prior-damage check on the vehicle and reviewed the file history. No earlier damage to the vehicle is on record, and nothing indicates the damage predates the start of coverage.

Attorney submitted the claimant's initial injury notice citing shoulder pain. The reported injury is consistent in type and severity with the force of a collision of this kind.

2024-04-07
Requested prior medical records. No earlier injury to the same shoulder area is known from the records available so far.

2024-04-10
Claimant gave a recorded statement through counsel. The account of the accident matches what was described in the first report.

2024-04-21
Follow-up call with the claimant. The account given was the same as in every prior conversation, with no changes to the sequence or the details.

2024-04-23
Treatment has continued somewhat longer than is typical for this kind of shoulder injury. Treating provider notes are being requested to document the reason for the extended course.

2024-04-27
Reviewed the file. Coverage is confirmed for the named driver, the vehicle damage matches the described impact, and the claim will move to evaluation of the bodily injury portion pending the treating provider notes.

Recorded Statement

Claim number:	C-1267
Statement of:	Joshua Aguirre
Taken by:	Jerry Hanson
Date:	2023-09-18

Q: This recorded statement is regarding a motor vehicle incident in Conroe, Texas. Please state your full name for the record.

A: I'd rather just keep my name out of it for now, if that's alright. You can call me the claimant.

Q: That's acceptable for this recording. Can you describe what happened?

A: I was driving down the main road heading toward the shopping center. Traffic was light. Another car came into my lane, and we ended up in a head-on collision. It was slow, though. I'd guess we were both going maybe fifteen or twenty miles an hour when we met.

Q: Were you wearing a seatbelt at the time?

A: Yes, I was.

Q: Did the airbags deploy?

A: No, they didn't. It was more of a hard jolt than anything.

Q: Where did you first feel pain or discomfort?

A: My right shoulder, mostly. I felt it pull as I grabbed the wheel. By that evening it was really sore, and I've had trouble lifting my arm over my head since.

Q: Have you sought medical treatment?

A: Yes, I went to an urgent care clinic the same day and was refererd to a physical therapist. I'm still going a couple of times a week.

Q: Did you have any shoulder problems before this collision?

A: Not that I can recall. I had a bit of soreness after a workout once, but nothing that stopped me from working or doing my daily activities.

Q: Is there anything else you'd like to add to your statement?

A: Just that I'm cooperating fully and I want this resolved so I can get back to normal. Thank you.

Q: Thank you. This concludes the recorded statement.
