Occupants of each vehicle

Vehicle	Seat	Name
Vehicle 1 (insured)	Driver	Joshua Aguirre
Vehicle 1 (insured)	Passenger 1	Laurie Davila
Vehicle 2	Driver	Louis Ortega

Officer's narrative

Officers responded to a two-vehicle collision in Conroe, Texas, where a westbound sedan and an eastbound sport utility vehicle came together head-on at low speed. Driver 1, the operator of the sedan, reported pain in the right shoulder and was evaluated at the scene. Driver 2, operator of the SUV, stated that the sequence of events matched what Driver 1 described, and two independent witnesses gave accounts consistent with both drivers. Scene photographs were taken and show front-end damage to both vehicles that corresponds to the direction and force of the impact described by the parties. Responding officers confirmed that Passenger was seated in the sedan at the time of the collision and was not separately injured. Nothing observed at the scene suggested prior damage to either vehicle, and no earlier collision involving the sedan was reported to officers. Driver 1 was confirmed as a named insured on the policy covering the sedan. Officers issued no citations at the scene. This report is complete as of the time of filing and will be supplemented if additional information becomes available.
