Claimant:	Sean Faulkner
Adjuster:	Darin Tyler

2024-06-16
First notice of loss received from the insured reporting a low-speed head-on collision at a residential intersection. The claimant is the other driver and has retained counsel, so all further contact will go through the attorney's office.

2024-07-19
Confirmed the driver is named on the policy and that coverage was in force at the time of the reported loss. No issues with policy status were found.

2024-08-26
Obtained photographs of both vehicles from the scene and statements from two independent witnesses. Both witnesses describe the vehicles meeting nose to nose at low speed, consistent with the insured's account.

2024-09-18
Spoke with the other driver, who gave the same description of how the collision happened. Their account matches the witness statements and the scene photos.

2024-11-04
Reviewed the damage photos with our appraiser. The damage pattern is mostly in line with the described impact, and no prior damage to the vehicle is known from our records or the repair history.

2024-11-15
Received the medical records and claim package from the attorney's office. The claimant reports a wrist fracture, which fits the kind of force expected from a collision of this type.

2024-11-25
Treatment has run somewhat longer than is typical for this injury, so the file has been flagged for a standard review of the treatment plan and billing.

2024-11-30
Requested prior medical history from the claimant through counsel. No earlier injruy to the same wrist or arm has been identified in the records received so far.

2025-01-01
Spoke with the claimant's attorney, who confirmed the client is still following the treatment plan. The claimant has given the same account of the accident in every conversation we have had.

2025-01-13
Noted that the seating position of the claimant at the time of impact is not yet fully clear from the statements and photos. Asked counsel to confirm seat position for the file.

2025-01-24
Nothing so far suggests the damage predates the policy start date. The file remains open pneding the treatment review and the seat position confirmation.

A: It happened on a two-lane road in Baytown, Texas, near an intersection with a gas station on the corner.

Q: Thank you. Can you describe how the collision occurred?

A: I was driving toward the store when a car coming the other way drifted into my lane. We were going slowly, maybe walking speed, but we still hit front to front.

Q: Were you wearing your seatbelt?

A: Yes, I was. The airbag did not deploy, but I hit the steering wheel with my arms up.

Q: Did you seek medical attention after the collision?

A: I went to an urgent care clinic that evening. They took X-rays and told me my left wrist was fractured. I have a slpint now and I see a hand specialist next week.

Q: Did you have any injuires before this accident involving that wrist?

A: No. I had never broken anything in that arm before.

Q: Has anyone else been in contact with you aobut the accident?

A: The other driver's insurance company called me once. I told them I wuold wait until I spoke with you.

Q: Is there anything you would like to add to your statement?

A: Only that my car is still at the repair shop and I have been using a rental for work. I want to make sure those costs are covered while I recover.
