Description of the accident (claimant's words)

I was driving through the intersection on a green light when a vehicle entered from the cross street and struck the side of my car. The impact spun my vehicle partway around and the airbags deployed. I hit my head on the window frame and felt dizzy and nauseous almost immediately, and I was taken from the scene by ambulance. I have described the events the same way to the officer at the scene, the adjuster, and my doctors, and my account has not changed in any of those conversations. I am the named driver on this policy and I am submitting this statement so the claim can be processed. Since the collision I have been diagnosed with a concussion, and I have had headaches, light sensitivity, and trouble concentrating, which have limited my work and daily routine.
