Officer's narrative

On the afternoon of the reported collision, officers responded to an intersection in Katy, Texas, where a side impact between two vehicles had occurred. Driver 1 was operating the vehicle that struck the passenger side of Driver 2's car as it entered the crossing. Driver 1 provided an insurance card listing Driver 1 as the named insured on the policy. Driver 1 told officers of a headache and confusion following the impact and reported a concussion. Passenger was seated in the front right position of Driver 2's vehicle and was present at the scene, and both the responding officers and the on-scene witnesses confirmed that Passenger was inside the vehicle at the time of the collision. Damage to both vehicles is consistent with the direction and force of the described impact. Driver 2 reported no prior damage to the vehicle, and none was observed. No independent witnesses came forward, no photographs were submitted, and no other report of the incident was located at the time of this writing. Officers will forward the file for supplemental review.
