Claim Notes

Claim number:	C-1273
Claimant:	Scott Perry
Adjuster:	Alison Sweeney

19 May 2025
Claimant reported a rear-end collision at a traffic light and a knee injury; the claim was opened and the vehicle was assigned for inspection.

20 May 2025
Police report and two independent witnesses confirm the claimant was in the vehicle and that the collision occurred as described. The other driver's account matches.

7 Aug 2025
Photos from the scene and the vehicle inspection show damage mostly in line with the described impact. No earlier damage to the vehicle is known, and nothing suggests the damage predates the start of coverage. The driver is named on the policy.

29 Aug 2025
Claimant reports a knee injury consistent with a crash of this type. Medical records show a prior minor strain in the same area years ago that healed fully, which is noted for context.

21 Sep 2025
Claimant added a few small details in a follow-up call, such as the seating position and the sequence of braking. The core account of the accident remained the same as the first report.

27 Oct 2025
Treatment followed a usual course for this kind of injury, with physiotherapy and follow-up visits. Care tapered off as the claimant improved, and the treating provider's notes reflect steady recovery.

10 Dec 2025
Based on the collision facts, witness statements, photos and medical timeline, the reported injury is plausible for this crash. File is progressing to evaluation with no open coverage questions.

Recorded Statement

Claim number:	C-1273
Statement of:	Scott Perry
Taken by:	Alison Sweeney
Date:	17 Apr 2025

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my full name on a recording, so just call me the claimant.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was stopped at a red light on a main road in Pasadena, Texas, in the right lane.

Q: What happened next?

A: The car behind me didn't stop in time. I felt a hard jolt from behind and my car lurched forward into the intersection.

Q: Did you notice anything before the impact, like the other vehicle braking or swerving?

A: No. I was looking at the light and didn't see it coming. I heard tires squeal for a second, then the impact.

Q: Were you able to drive your car away from the scene?

A: No, the rear bumper was crushed and the car wouldn't roll properly, so a tow truck took it.

Q: Did you get medical attention?

A: Yes, I went to an urgent care clinic that same afternoon. My left knee hit the dashboard and it's swollen and painful when I bend it. They took X-rays and referred me to an orthopedic doctor.

Q: Are you still experiencing pain or limited movement?

A: Yes. Stairs are hard, and I've been using a brace for most of the day. I've missed several days of work because of it.

Q: Did you have any pain or problems with that knee before the collision?

A: No, not that I can recall. I played recreational soccer on weekends and had no trouble.

Q: Thank you. Is there anything else you'd like to add?

A: Only that I'd like to get my car repaired and my medical bills taken care of as soon as possible.
