Description of the accident (claimant's words)

I was changing lanes on a multi-lane road in Baytown, Texas, checking my mirror and signaling first, when a car in the lane beside me moved over and clipped the side of my vehicle. I pulled onto the shoulder right away and stayed at the scene until the other driver and I had exchanged information. My neck snapped forward and back on impact, and within a day I was dealing with stiffness and pain that has made turning my head and sleeping difficult. I am the polichyolder named on this policy, and I have given the same account of what happened each time I have described it. Looking back, I remembered a few small details more clearly as the days passed, such as where the other car's bumper hit my door, but the core sequence has not changed.
