Claim Notes

Claim number:	C-1277
Claimant:	Jeremy Bailey
Adjuster:	Alison Sweeney

2024-11-28
Claim opened after the insured reported a sideswipe that occurred while changing lanes. The driver is named on the policy, and nothing in the file suggests the vehicle damage predates the start of coverage.

2024-12-04
Photos from the scene, witness statements, and the other driver's account all describe the collision the same way. The other vehicle moved into the insured's lane as the insured was merging.

2025-01-20
The damage to the right side of the insured vehicle lines up with the impact described, and there is no record of earlier damage to that vehicle.

2025-05-10
The claimant reports a knee injury and is represented by counsel. Counsel has asked that all contact be routed through their office.

2025-05-18
Police and witnesses confirm the claimant was riding in the insured vehicle at the time. The initial medical report describes a knee injury that fits the kind and force of the collision well.

2025-05-21
No prior injury to the same knee appears in the records obtained so far. The claimant's account in the recorded statement and the later interview is consistent, although some small details were added in the later interview without changing the core account.

2025-06-20
Treatment has continued to expand well beyond what this type of knee injury usually requires, with more visits and new services added month after month. An independent medical review has been requested to assess the treatment plan.

2025-07-02
The file is under review pending the independent medical review and receipt of the remaining treatment records. The accident mechanics, vehicle damage, and occupant information are all consistent with the calim as reported.

Recorded Statement

Claim number:	C-1277
Statement of:	Jeremy Bailey
Taken by:	Alison Sweeney
Date:	2024-11-25

Q: Good afternoon, this is the adjuster following up on the claim. This call is being recorded. Can you confirm you're comfortable continuing?

A: Yes, that's fine.

Q: Thank you. Please walk me through what happened when the collision occurred.

A: I was driving in the right lane on a main road in Baytown and needed to move over to make my exit. I checked my mirror, signaled, and started to change lanes. The other vehicle came up in the left lane and clipped the side of my car. It scraped along the passenger side and pushed me toward the shoulder.

Q: Did you see the other vehicle before you moved over?

A: Not clearly. It was in a blind spot, and I didn't notice it until the contact happened.

Q: Did you stop after the impact, and did you speak with the other driver?

A: I pulled onto the shoulder right away. The other driver stopped too and we exchanged information. He said he was looking at his phone for a second.

Q: Thnak you. Now, you mentioned an injury. Can you describe it?

A: My right knee hit the dashboard and the door frame. It swelled up within a few hours, and I can't bend it fully. Walking up stairs is painful, and I've had to limit my driving.

Q: Have you received medical treatment for the knee?

A: Yes, I was seen at an urgent care clinic the same day, and I've been referred to an orthopedic doctor for imaging and physical therapy.

Q: Is there anything else you'd like to add about the incident?

A: Only that I've been careful to follow the doctor's instructions, and I want the claim handled so I can get my treatment covered.

Q: Thank you. That concludes the statement.
