Description of the accident (claimant's words)

I was changing lanes on a busy road in Baytown, Texas, when the vehicle in the next lane drifted over and sideswiped the passenger side of my car. I had checked my mirror and signaled befroe moving over, so I was surprised by the impact. My car was pushed toward the shoulder, and I pulled over as soon as I could control it. When I got out, my right knee was throbbing and I had difficulty bending it. Looking back, I remember a few more small details than I did at first, such as the exact position of the other car's mirror, but my description of how the collision happened has not changed. I am the named driver on this policy and I am providing this account so the claim can be processed.
