Bodily Injury Unit

Claim Notes

Claim number:	C-1279
Claimant:	Victoria Jenkins
Adjuster:	Christopher Wong

5 Apr 2024
The insured reported a low-speed head-on collision at a residential intersection and said the other vehicle crossed into their lane. The claimant was identified as the driver of the vehicle, and the police report confirms the claimant was in the vehicle at the time.

1 Jul 2024
The driver is named on the policy, and the policy was in force at the time of the loss. Nothing suggests the damage happened before the coverage started.

21 Jul 2024
Photos taken at the scene confirm some of the reported details, including the location of the impact and the rough resting positions of both vehicles. No independent witnesses have come forward to describe how the collision occurred.

23 Jul 2024
The claimant was contacted by phone and described the collision and the onset of back pain in the same way as in the first conversation. The account has remained consistent across every contact so far.

13 Aug 2024
The claimant reports a back strain and has been seen at a clinic for treatment. The treatment has run somewhat longer than is typical for this kind of injury, so the file will be monitored.

21 Aug 2024
No earlier injury to the same body area is known from the claimant's history or from prior claims. It is not yet clear whether the back injury was caused by this collision or by something else.

22 Aug 2024
The vehicle was inspected at a repair facility. No earlier damage to the vehicle is known from our records or from the inspection.

28 Aug 2024
The inspection found damage to the front bumper, hood, and radiator support. It is not yet clear whether all of the damage came from this impact, so the repair estimate is being reviewed line by line.

17 Oct 2024
The repair estimate has been sent to the body shop for a second look at the areas that may have been damaged in an earlier event. The shop has been asked to note which parts were visibly damaged in the photos.

5 Nov 2024
The claim file has been reviewed against the photos, the police report, and the statements taken so far. The core facts of the collision are supported, but the extent of the injury and vehicle damage sitll needs work.

9 Nov 2024
A rqeuest for the claimant's medical records has been sent with their consent. Once the records arrive, the causation question on the back injury will be revisited with the treating provider.

23 Nov 2024
The file remains open pending receipt of the medical records and the final repair figures. The next review is

scheduled once those items are in.

Recorded Statement

Claim number:	C-1279
Statement of:	Victoria Jenkins
Taken by:	Christopher Wong
Date:	4 Apr 2024

Q: Please state your full name for the record.

A: I'd rather not give my full name on a recording, but you can note that I'm the driver of the vehicle involved.

Q: That works. Can you tell me where the accident happened?

A: It was in Pasadena, Texas, on a two-lane road near a shopping center. It was late afternoon and traffic was moderate.

Q: What were you doing right before the collision?

A: I was heading toward the intersection and slowing down for a car ahead. The other vehilce came over into my lane. I braked, but we still met head-on, though it was a slow impact. I'd guess we were both going maybe fifteen miles an hour.

Q: Did your airbags deploy?

A: No, they didn't. The car lurched forward and my seatbelt locked, and my chest and lower back hit hard against the belt.

Q: Did you get out of the vehicle or go to a doctor?

A: I got out and felt okay for about an hour. By the evening my lower back was stiff and sore, and it has gotten worse since. I went to an urgent care clinic the next morning.

Q: What did the clinic tell you?

A: They diagnosed a back strain and gave me muscle relaxers and a referral to a physical therapist. I've been attending sessions twice a week.

Q: Have you had any prior problems with your back?

A: I had some occasional stiffness years ago, but nothing that required treatment, and I hadn't seen anyone for it in a long time.

Q: Is there anything else you'd like to add?

A: Only that I'm still having trouble sitting for long periods and lifting, and I'm cooperating fully with my treatment plan.

Q: Thank you. This concludes the statement.

A: Thank you.
