Officer's narrative

Driver 1 was traveling in the left lane of a multi-lane roadway in Katy, Texas, when the sideswipe collision occurred. Driver 1 reported that Driver 2 changed lanes into the same space without adequate clearance, causing contact along the left side of Driver 1's vehicle. Driver 2 gave a statement consistent with this account and did not dispute that a lane change had taken place. Two independent witnesses at the scene described the sequence in the same way, and photographs taken on scene show damage along the rihgt front of Driver 2's vehicle and the left side of Driver 1's vehicle, which is consistent with the reported impact. Passenger was seated in the front passenger seat of Driver 1's vehicle, and both the responding officers and the witnesses confirmed Passenger's presence at the time of the crash. Driver 1 reported a concussion with headache and dizziness, which is a plausible injury for a sideswipe of this kind. Several small scratches on the left rear panel appear weathered and may predate this collision; they were noted but not attributed to this event. Driver 1 is listed as a named driver on the policy in force at the time of the incident.
