Bodily Injury Unit

Claim Notes

Claim number:	C-1281
Claimant:	James Rhodes
Adjuster:	Darin Tyler

2023-04-06
Claim reported by the insured's representative following a sideswipe that occurred while the claimant was changing lanes. The claimant reports a wrist fracture and is represented by counsel, so all further contact will be routed through the attorney's office.

2023-05-27
Reviewed the driver listing and confirmed the claimant is named on the policy as a driver. Coverage was in force at the time of loss, and nothing in the file suggests the vehicle damage predates the policy start.

2023-05-30
Obtained the police report, witness statements, and scene photographs. All three sources describe the claimant's vehicle as being in the adjacent lane when the other vehicle drifted over, and the other driver's account matches.

2023-06-03
Inspected the vehicle. The damage pattern along the driver side is consistent with the impact described, and no prior damage in the same area appears in our records or the photos.

2023-08-19
Spoke with the claimant's attorney. The client's account of the collision has stayed the same in every conversation so far. Medical records show a wrist fracture that is a plausible injury for this type of crash, and no earlier injury to the same area is on file.

2023-10-08
Treatment has run somewhat longer than is typical for this fracture, so the file is being monitored and the treating provider's records have been requested to confirm the course of care.

Recorded Statement

Claim number:	C-1281
Statement of:	James Rhodes
Taken by:	Darin Tyler
Date:	2023-03-12

Q: Good morning. This is the adjuster following up on the claim. This call is being recorded with your permission. Can you confirm you're comfortable with that?

A: Yes, that's fine.

Q: Thank you. Please describe in your own words what happened on the day of the collision.

A: I was driving on the main road in Baytown, in the right lane, and I wanted to move over to the left lane because I needed to make a turn a little further up. I checked my mirror, I think, and I signaled. When I staretd to move over, a car in the left lane came up alongside me and clipped the side of my vehicle. It scraped along the passenger side, and I felt my car push toward the median.

Q: Did you see the other vehicle before you began your lane change?

A: Not clearly. I glanced over my shoulder but I didn't see anything right next to me. It must have been in my blind spot.

Q: Did you stop after the contact, or did you keep going?

A: I pulled onto the shoulder as soon as I could get control of the car. The other driver stopped a little ahead of me and we got out and talked for a few minutes.

Q: Did you have any injuries at the scene?

A: My right wrist was hurting quite a bit, but I didn't think it was broken at first. I went to the emergency room later that afternoon and they told me it was a fracture. I've been wearing a splint and I have a follow-up with a hand specialist next week.

Q: Thank you. Is there anything else you think I should know about the collision?

A: No, I think that covers it. I just want to get the repairs done and get my wirst taken care of.

Q: Understood. Thank you for your time today. We'll be in touch with next steps.

A: Okay, thank you.
