Description of the accident (claimant's words)

I was driving in the right lane on a busy road in Baytown, Texas, when I signaled and began moving left to change lanes. As I moved over, the side of my vehicle was struck by a car that had come up quickly in the lane I was entering. The impact pushed my car toward the median and scraped along the passenger side. I held the wheel and braked until I came to a stop on the shoulder. My right wrist hit the door frame during the contact, and I was taken to a hospital, where I was told the wrist was fractured. I have described the events the same way every time I have spoken with anyone about this incident. I am the named policyholder on this policy and I have provided my vehicle and insurance details on this form.
