Claim Notes

Claim number:	C-1282
Claimant:	George Booker
Adjuster:	Alison Sweeney

2023-11-26
Claim reported by phone today. Insured states a vehicle was struck while parked in a store parking lot and the other driver left the scene before exchanging details.

2023-12-14
Spoke with the insured's household driver, who was operating the vehicle at the time. The account matches the initial report, and the driver says a bumper was pushed in on the rear passenger side.

2023-12-21
Obtained the police report reference. Officers attended the lot and recorded the statements of two witnesses who saw the collision and confirmed the claimant was seated in the vehicle when it happened.

2023-12-29
Photos from the scene and the insured's phone were received. The damage shown on the rear quarter panel and bumper is consistent with the impact described by everyone so far.

2024-01-16
Claimant is now represented by counsel. All future contact will go through the attorney's office, and a letter of representation has been placed in the file.

2024-01-18
Counsel's office sent a demand package listing neck and lower back complaints. Records requested from the first treating provider; it is not yet clear whether the back injury stems from this crash or from another source.

2024-02-10
Reviewed the treatment records. Care followed a typical course of physical therapy and medication, and symptoms eased steadily as the claimant improved. No earlier injury to the same body area appears in the records we have.

2024-03-15
Spoke with the other driver, who independently confirmed the sequence of events and the position of both vehicles. Nothing in that account conflicts with the physical damage or the witness statements.

2024-04-17
Vehicle inspected at the repair facility. Estimator found no earlier damage to the vehicle and no prior repair records surfaced in the database check. The findings line up with the described impact.

2024-05-19
Confirmed the policy was active on the date of loss and that the driver is a household member of the policyholder and therfeore covered. Nothing points to any damage occurring before coverage began.

2024-05-30
Counsel was asked for prior medical history and wage documentation. Claimant has given the same account of the collision in every conversation to date, and no inconsistencies have been noted.

2024-06-02
Injury evaluation remains open pending the treating doctor's final note and the records review. Reserves are being kept at the current level until the medical causation question is resolved.

Recorded Statement

Claim number:	C-1282
Statement of:	George Booker
Taken by:	Alison Sweeney
Date:	2023-10-16

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the parking lot collision in Pasadena, Texas. Please state your full name for the record.

A: I'd rather just give you my details in writing if that's alright. I'm still pretty sore and I don't want to get anything wrong.

Q: That's understandable. We can keep this brief. Can you describe where you were when the collision happened?

A: I was in the lot at a grocery store, driving slowly toward an open space near the front row. It was late afternoon and the lot was pretty busy.

Q: What happened next?

A: A pickup backed out of a space on my right without stopping. I hit the brakes but he still clipped the rear quarter panel of my car. It wasn't a huge impact, but it jolted me forward and then back against the seat.

Q: Did you notice any injuries right away?

A: Not really at first. I got out, looked at the car, and felt fine enough to drive home. By that night my lower back was tight, and by the next morning I could barely turn to get out of bed.

Q: Have you seen a medical provider about the back strain?

A: Yes, I went to urgent care the following day. They diagnosed a lumbar strain and told me to rest, take anti-inflammatories, and do some gentle stretching. I'm still having troulbe sitting for long periods.

Q: Is there anything else you would like to add about the collision?

A: Only that I was belted and I was not using my phone. I just want the repairs handled and my back to get better.

Q: Thank you. We will follow up with you in writing about next steps.

A: Okay, thanks.
