Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1283
Claimant:	Nicole Davis
Adjuster:	Christopher Wong

2024-04-06
First notice of loss received from the insured's agent reporting a sideswipe while changing lanes on a multi-lane road. The claimant, a passenger in the insured's vehicle, reports a back strain and has retained counsel.

2024-04-29
Reviewed the policy file and confirmed the driver is named on the policy and coverage was in force at the time of loss. No coverage issues identified at this stage.

2024-04-30
Obtained the police report, which places the claimant in the vehicle at the scene and describes the lane-change impact consistent with the account given by the insured.

2024-06-03
Took recorded statements from the other driver and two independent witnesses. Each describes the sideswipe as it was reported to us, with no material differences in sequence.

2024-06-24
Reviewed scene photographs and the damage estimate on both vehicles. The damage pattern lines up with the described impact along the right rear quarter panel.

2024-07-03
Checked vehicle history and prior claim records. No earlier damage to this vehicle is on file, and nothing suggests the damage predates the policy inception.

2024-07-16
Spoke with the claimant's attorney, who provided the initial medical records. The claimant's account of the collision matches what was given in earlier conversations with our office.

2024-07-31
Medical records show a lumbar strain diagnosed at urgent care. The injury is a typical outcome for a collision of this type, and the records reference no prior treatment to the same body area.

2024-08-22
Received the treatment log from the provider. Care followed a usual course of physical therapy and tapeerd as the claimant reported steady improvement in mobility and pain levels.

2024-09-05
Requested prior medical history through counsel. No earlier injury or complaint involving the same region of the back appears in the records received to date.

2024-10-30
Reviewed the file with the handling supervisor. Liability and damage appear settled, the injury is consistent with the mechanism, and the claim is moving to evaluation of the treatment cuorse and resolution.

Recorded Statement

Claim number:	C-1283
Statement of:	Nicole Davis
Taken by:	Christopher Wong
Date:	2024-03-11

Q: Thanks for taking the time to speak with me today. This recorded statement concerns the sideswipe collision you were involved in while driving in Conroe, Texas. Is it all right if I record this conversation?

A: Yes, that's fine.

Q: Please state your full name and the best number to reach you.

A: I'd rtaher keep those details off the recording for now, but I can provide them to the adjuster file afterward.

Q: That works. Can you walk me through what happened leading up to the collision?

A: I was changing lanes to move into the right lane because I needed to get off at the next exit. I checked my mirror, saw nothing rihgt beside me, and signaled. As I started to move over, the other vehicle came up on my right side and we made contact along the passenger side of my car.

Q: Did you see the ohter vehicle before you started to merge?

A: Not clearly. It was in the blind spot area, and I didn't catch it until I was already partially over.

Q: How fast were you each traveling?

A: I'd estimate I was around the speed of traffic, maybe a little under the limit. The other car seemed to be moving a bit faster than I was.

Q: Did either vehicle leave the roadway or strike anything else?

A: No. Both of us pulled onto the shoulder after the impact. Nothing else was hit.

Q: Did you feel any injuries at the scene?

A: I felt a tightness in my lower back right away, but I didn't think much of it. By the next morning it was a lot worse, with stiffness and pain when I bent or sat for long periods.

Q: Have you sought medical treatment since the collision?

A: Yes, I went to a clinic a couple of days later. They diagnosed a back strain and gave me instructions for physical therapy and pain management.

Q: Thank you. Is there anything you would like to add before we conclude?

A: No, I think that covers it.

Q: Thank you for your time. We will follow up with you in writing.
